A new brand with a long history

A 30 years professional experience and a very good knowledge of textile trade allowed us to place this new catalogue at your disposal.
This catalogue doesn't include thousands of special attachments designed according to your specific requests, but they are inserted in our archives in order to do again.
We are at your disposal to plan new solutions according to your needs.
A stocked warehouse and a rapid delivery of goods, even special ones, is our priority.
